Construction & Demolition Material Recycling Directory

Metro Nashville Public Works Division of Waste Management

939 Dr. Richard Adams Drive
Nashville, TN 37207

Phone: (615) 880-1000 Fax: (615) 882-8619

Disclaimer: Listings in the Construction & Demolition Material Recycling Directory are provided free of charge to businesses that provide reuse or recycling services to Metro Nashville residents or businesses. To ensure that the directory fulfills the mission of Metro Nashville Division of Waste Management, we list only businesses that have requested or accepted inclusion in this directory and who have represented to the County that they provide services that reduce or recycle waste. Metro Nashville recognizes that inclusion in the directory implies that the business assumes the responsibility for the reuse or the recycling of materials; individuals using this directory must verify the accuracy of such representation. Metro makes no warranties as to the accuracy of the information it has been provided. Businesses listed in this directory must also comply with all City, County, State, and/or Federal environmental regulations. Failure to comply with any of these may cause a business to be removed from the directory.

This guide is also available at our Website: www.nashville.gov/recycle.

Printed on recycled paper.

If you need assistance or accommodation, please contact Kristen Deitrick, ADA Coordinator, 939 Dr. Richard Adams Drive, Nashville, TN 37207; 862-8962.

INTRODUCTION AND DEFINITIONS

The Metropolitan Government of Nashville and Davidson County wants to promote the most cost-efficient and environmentally progressive methods to handle construction debris. The information in this Guide will help you evaluate opportunities to cut costs on your construction, remodeling or demolition project by recycling and reusing materials at job sites. The following Guide will be updated on a regular basis.

If vendors would like to be placed in this Guide, they should contact 615-880-1000 or email sharon.smith@nashville.gov.

The Guide includes:

1. How to use this directory
2. Ordinances pertaining to C&D waste
3. Definition of terms
4. Tips on setting up a job site recycling program
5. Commercial Guide

QUESTIONS?

Call the Metro Nashville Division of Waste Management at (615) 880-1000. You may also find answers to commonly asked questions on Metro's Website at www.nashville.gov/recycle

1. HOW TO USE THIS DIRECTORY

This directory has listings by material type and geographical area (city) for quick reference.

No pricing information is included in this directory. Please call for most current information first to verify costs and service expectations.

Note: This guide contains listings from information provided to Metro Nashville and GBB. It does not constitute a recommendation and may not be all-inclusive. Check local Yellow Pages for additional sources.

2. ORDINANCES PERTAINING TO C&D WASTE

10.20.287 Tip fees—Construction or demolition waste.

A. Effective May 1, 1998, any person enjoying the privilege of providing temporary or permanent disposal of solid waste generated or collected within the boundaries of the metropolitan government at a site or facility located within the boundaries of the metropolitan government or enjoying the privilege of collecting solid waste within the boundaries of the metropolitan government and disposed of outside the boundaries of the metropolitan government, shall pay to the metropolitan government a fee of one dollar and fifty cents per cubic yard or six dollars per ton of solid waste accepted into the site or facility or collected within the boundaries of the metropolitan government and disposed of outside said boundaries. The director of public works shall be authorized to promulgate rules and regulations for the operation of any such temporary or permanent disposal site or facility, and for the collection and documentation of fees pursuant hereto. Fees charged pursuant to this section shall be imposed on solid waste disposed of at the Nashville Thermal Transfer Plant or at any sanitary landfill or other disposal site owned or operated by the metropolitan government, in addition to the tip fee set out at Metropolitan Code of Laws Section 10.20.200.

B. Any person enjoying the privilege of providing permanent disposal of construction/demolition waste or residue or land clearing waste or residue generated within the boundaries of the metropolitan government shall, if and only if such disposal site is a Class III or Class IV disposal facility as defined by the state Department of Environment and Conservation, pay to the metropolitan government a fee of fifty cents per cubic yard of waste transport vehicle capacity accepted at the site. The director of public works shall be

authorized to promulgate rules and regulations for the collection and distribution of such fees, and as necessary to carry out the implementation, supervision and enforcement of such fees.

C. Fees imposed by this section shall not be imposed upon waste which is subject to the fees established at Section 10.20.210. (Amdts. 1 and 2 to Ord. 98-1109 § 1, 1998; Ord. 98-1109 § 1, 1998)

10.20.290 Building debris—Responsibility for removal.

A. Building debris such as scrap lumber, plaster, roofing, concrete, brickbats and sanding dust resulting from the construction, repair, remodeling or demolition of any building or appurtenances on private property will not be removed by the department of public works, and the owner must cause such materials and waste to be privately moved.

B. Nothing herein shall prohibit the dumping of building debris on landfills operated by the metropolitan government, provided the tip fee, as set out in Section 10.20.200, is paid. (Ord. 93-821 § 1, 1993; prior code § 36-2-16)

10.20.230 Tip fees—Increased when using out-of-county vehicles.

All fees and charges imposed in this article shall be doubled when such waste or refuse is transported to any sanitary landfill, incinerator or collection site in a vehicle having other than a Davidson County motor vehicle license tag. (Ord. 93-821 § 1, 1993; Amdt. 3 to Ord. 89-825, 11/21/89; Ord. 89-825 § 5, 1989: prior code § 36-2-15(b)(part))

10.20.220 Tip fees—Reduced when recycling materials.

A. Sections 10.20.200 through 10.20.260 to the contrary notwithstanding, a fee of five dollars per cubic yard or twenty dollars per ton shall be collected from any person or business entity (including not-for-profit entities) who generates or produces solid waste upon property owned, leased or rented by such person or business entity to separate or cause to be separated recyclable materials therefrom while the solid waste is on such property to either (1) maintain a title to such recyclable materials for his own use, or (2) to dispose of such recyclable materials by sale or gift, provided such separation and disposition neither creates a public nuisance nor is otherwise injurious to the public health, welfare and safety.

3. DEFINITION OF TERMS

Chipper Residue: wood chips produced by mechanical grinding of limbs, brush, or other woody waste.

Class I Disposal Facility: a sanitary landfill which serves a municipal, institutional, and/or rural population and may be used for disposal of domestic, commercial, institutional, municipal, bulky, landscaping/land clearing, industrial, construction/demolition, farm, tires, and dead animal wastes and certain approved special wastes.

Commingled C&D Materials: Contains mixed recyclable C&D material that has not been separated.

Construction and Demolition Waste or C&D: wastes, other than special wastes, resulting from construction, remodeling, repair and demolition of structures and from road building. Such wastes include but are not limited to bricks, concrete and other masonry materials, soil, rock and lumber, road spoils, rebar, and paving material.

Recyclable Materials: those materials which would otherwise become solid waste and which may be collected, separated or processed and returned to the economic mainstream in the form of raw materials or products pursuant to the Solid Waste Management Plan.

Segregated Wood Waste: clean, uncontaminated wood waste acceptable to the Director of Public Works.

Source-separated: C&D materials that are separated from other waste and intended for recycling.

Solid Waste: all municipal, commercial or industrial solid waste, garbage, refuse, and other such similar and related materials, including without limitation Municipal Solid Waste, [Bulky Waste,] Rubbish, C&D, White Goods, Wood Waste, Yard Waste and recyclable materials when they become discarded, except those

excluded by the Tennessee Department of Public Health, but does not include Recyclable Materials or materials being transported to a facility for reprocessing or reuse.

Unacceptable Waste: any solid waste that is (i) Hazardous Waste, (ii) Medical Waste, (iii) excluded from the definition of Municipal Solid Waste by clauses (A), (B), or (C), and (iv) [discuss any others].

Wood Waste: includes chipper residue and segregated wood waste.

4. TIPS ON SETTING UP A JOB-SITE RECYCLING PROGRAM

IDENTIFY RECYCLABLES

Asphalt, concrete, cardboard, metals and wood are easy to recycle in Metro Nashville. Recycling options also exist for asphalt roofing, fluorescent lighting, carpet, and carpet padding, ceiling tiles, and film plastic. Don't forget to set up recycling for beverage containers and paper from the job shack.

CHOOSE A RECYCLING METHOD:

There are three basic approaches to job-site recycling:

Contract with a recycling hauler who accepts commingled C&D materials. This service allows contractors to put multiple recyclables such as wood, cardboard and metals in one container. The recycling company takes the materials to a sorting facility where the materials are separated for recycling. Materials not accepted in commingled loads will still need to be source-separated.

Separate recyclables at the source for recycling. This method involves collecting recyclables in separate containers as they are generated. The recycling hauler takes the materials directly to a recycler or a transfer site. Materials not accepted in commingled recycling, such as carpet or ceiling tile, must be source-separated for recycling.

Self-haul your recyclables. Source-separate recyclables in piles or containers on site and haul them yourself to local recyclers or transfer sites. You may be able to drop off commingled loads at a recycling company. Call to confirm.

SELECT A RECYCLER

Specify in an agreement with the recycling service provider:

- What materials will be recycled
- Requirement that weight or volume of recyclables be documented
- Requirement that material will go to a properly permitted facility
- Costs associated with the service (fees for container rental, hauling, recycling charges)
- Schedule for picking up containers
- How containers will be labeled

INVOLVE SUBCONTRACTORS

- Include language in subcontractor agreements that they will recycle
- Discuss the recycling program at every safety meeting or other regular meetings

MONITOR THE PROGRAM

- Check dumpsters regularly to make sure material is getting separated properly

DETERMINE SAVINGS

- Calculate the cost savings from recycling versus disposal using documentation from your hauler.

FOR MORE INFORMATION ON PREVENTING WASTE AND RECYCLING ON THE JOB SITE

A Contractors' Guide to Preventing Waste and Recycling, a companion to this Construction & Demolition Material Recycling Directory which is planned in the future, is expected to include information on:

- Preventing Waste in the First Place
- Designing Waste Management Plans and specifications
- Setting Up a Job-site Recycling Program
- Using Recycled Content Building Materials
- Making Your Program Work
- Are There Dollars in Your Dumpster? Worksheets to calculate cost effectiveness of recycling

When published, this guide will be available online at www.nashville.gov/recycle

DIRECTORY OF AREA HAULERS FOR RECYCLABLES

RECYCLABLE MATERIALS HAULERS

The following is a list of commercial hauling services for construction debris. In addition to basic hauling services, they may also provide on-site container rental, consultation services, and on-call and/or regularly scheduled pickups. Some haulers will collect commingled C&D materials (i.e., multiple materials in one container), while others may require you to separate the materials into different bins before they can haul it to a recycling facility. Contact individual haulers to verify services provided, restrictions, and rates. See page 3 for more information regarding how to choose a construction-demolition recyclable materials hauler.

C&D WASTE DISPOSAL FACILITIES

Saturday, 9:00 a.m. to 2:00 p.m.

BRICK

Hailey's Salvage & Building Materials
1224 Dickerson Pike
Nashville, TN 37207
junkman@maxdialup.com (email)

Contact(s):
Charles Evans

Telephone:
(615) 226-0696

Fax:
(615) 228-3717

Services:

Accepts brick from C&D sites. Material delivery preferred, but will arrange for pickup as well.

Their operating hours are 8:00 a.m. to 4:30 p.m., Monday through Friday, and 8:00 a.m. to 12:00 noon on Saturday. Call Hailey's to coordinate deliveries and pickups.

Their operating hours are 8:00 a.m. to 4:30 p.m., Monday through Friday, and 8:00 a.m. to 12:00 noon on Saturday.

Contact Hailey's office to coordinate deliveries and pickups. Call Hailey's to coordinate deliveries and pickups.

Restrictions:

Materials should be cleaned, palletized, and shrunk wrapped, unless otherwise negotiated.

Mid-South Wrecking Co., Inc.
1608 Dickerson Pike
Nashville, TN 37207

Contact(s):
Bill Sauve

Telephone:
(615) 292-8747

Fax:
N/A

Services:

Mid-South salvages and sells solid bricks. Will arrange to drop off a trailer at the C&D site and subsequently, stack and load, and take away the materials.

Operating hours are 8:00 a.m. to 5:00 p.m., Monday through Friday, and 8:00 a.m. to 12:00 noon on Saturday. Contact Bill Sauve for salvaging, pickup, and possible drop-off of materials. No processing capacity restrictions.

Restrictions:

No bricks with holes (not good for reuse).

CARDBOARD

Smurfit-Stone Recycling Company
707 19th Ave. North
Nashville, TN 37203
www.smurfit.com (web)

---	------------------------------

C&D ACCEPTANCE POLICY AT METRO NASHVILLE TRANSFER STATION FACILITIES:

Metro Nashville has a long-term agreement with BFI for use of the BFI transfer station. Any licensed collector (i.e., a solid waste collector receiving a license under the regulations of the Department of Public Works pursuant to Metropolitan Code 10.20.300) is permitted to utilize the facility at 1160 Freightliner Drive and pay the tipping fee in force in the long-term contract at the time. The Metro solid waste fee will be added to the tipping fee.

REPORT ILLEGAL DUMPING

Illegal dumping is a serious and persistent problem in Metro Nashville. Each year tons of construction debris (wood waste, roofing, concrete), Land-clearing, and yard waste are dumped into empty lots, streams, and ravines. The dumped material causes erosion, contaminates wells, water tables, and surface waters, attracts pests, creates fire hazards, and detracts from the beauty of our natural areas. In addition, cleanup and disposal of illegally dumped material cost taxpayers in Tennessee hundreds of thousands of dollars each year.

If you see illegally dumped material, please report it:
In Metro Nashville, call Metro Nashville's Solid Waste Office at (615) 880-1000.

REPORT HAZARDOUS MATERIALS

To report the release of chemicals into the environment, call the Tennessee Emergency Management Agency (TEMA) at (615) 741-0001.

To report the mismanagement of hazardous wastes, call the Hazardous Waste Section of the Division of Solid/Hazardous Waste Management, Tennessee Department of Environment and Conservation Hot Line at (615) 532-0780. Another local contact would be the Nashville Fire Department Hazmat Team.

DEMOLITION

All demolition performed in Metro Nashville requires a permit from Metro Department of Codes Administration. Prior to demolition in the Metro Nashville area, call the Department of Codes Administration at (615) 862-6500.

NEW CONSTRUCTION/RENOVATION

All new construction performed in Metro Nashville requires a permit from Metro Department of Codes Administration. Prior to starting any new construction or renovation project in the Metro Nashville area, call (615) 862-6500.

IS YOUR PROJECT CERTIFIED?

Certified green, that is. Over the last few years, a number of organizations have developed green building certifications or rating systems for both residential and commercial construction. Locally, two systems are available: Leadership in Energy and Environmental Design (LEED™) for commercial projects and BUILTGREEN™ for residential developments, multi-family, single-family and remodeling. These two programs certify as “green” buildings that incorporate a number of building strategies that conserve resources and protect the environment.

These systems provide an important market-based tool for measuring the “greenness” of a building project and are rapidly becoming the standard by which a building’s environmental performance is measured. If you haven’t heard about them, yet, you will soon. Developers are interested in using these systems to market their projects and make a positive impression while consumers want to buy homes or rent office space that is kinder to the environment. Your clients may ask you to consider these systems or simply require you to use them.

LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN (LEED™)

The U. S. Green Building Council offers this national rating system, which certifies project as LEED™ Certified, Silver, Gold, or Platinum, based on the number of points achieved. The points are available in five different areas:

- Sustainable Sites
- Water Efficiency
- Energy and atmosphere
- Materials and Resources
- Indoor Environmental Quantity

Certification is currently available for commercial projects. The U. S. Green Building Council is also developing a residential program, one for commercial interiors and one for operations.

Listings are relevant and active for one year, after which they will need to be updated via an email, telephone call, fax or letter. If listing information changes within the year, it is the responsibility of the business to contact us to update the information.

Disclaimer:

Listings in the Construction & Demolition Material Recycling Directory are provided free of charge to businesses that provide reuse or recycling services to Metro Nashville residents or businesses. To ensure that the directory fulfills the mission of Metro Nashville Division of Waste Management, we list only businesses that have requested or accepted inclusion in this directory and who have represented to the County that they provide services that reduce or recycle waste. Metro Nashville recognizes that inclusion in the directory implies that the business assumes the responsibility for the reuse or the recycling of materials; individuals using this directory must verify the accuracy of such representation. Metro Nashville makes no warranties as to the accuracy of the information it has been provided. Businesses listed in this directory must also comply with all City, County, State, and/or Federal environmental regulations. Failure to comply with any of these may cause a business to be removed from the directory.
